

APPLICATION FOR PERMIT  
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office.....AUG 24 1984.....

Returned to applicant for correction.....NOV 05 1984.....

Corrected application filed.....

Map filed.....NOV 13 1984.....

The applicant Daniel H. Russell C/O Thomas S. Van Horne, Esquire; Mull & McCarthy; 1007 7th St. 7th Floor, of Sacramento, California 95814, hereby make application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

1. The source of the proposed appropriation is Underground (Hillside Well) Name of stream, lake, spring, underground or other source

2. The amount of water applied for is 0.0078 second-feet One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet

3. The water to be used for stockwater Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated

(b) Stockwater, state number and kinds of animals to be watered 250 cattle

(c) Other use (describe fully under "No. 12. Remarks")

(d) Power:

(1) Horsepower developed

(2) Point of return of water to stream

5. The water is to be diverted from its source at the following point in the SW¼ SE¼ Section 28, T19N, R49E, M.D.M. from which the NE¼ corner of said Section 28 bears survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.

N 60° 30' 50" W, 4573 feet

6. Place of use portion of the NE¼ SE¼ Section 21, T19N, R49E, M.D.M. Describe by legal subdivision. If on unsurveyed land, it should be so stated.

7. Use will begin about January 1 and end about December 31, of each year. Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) Six inch well with windmill, conduit and 10,000 gallon storage tank. State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with pump and motor, etc.

9. Estimated cost of works \$10,000 to \$12,000

10. Estimated time required to construct works one to two years  
If well completed, describe works.

11. Estimated time required to complete the application of water to beneficial use one to two years

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of livestock served from the waters of this source. It is further understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times but does not take responsibility for the use of the Federal range.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued under the provisions of NRS 534.120(2) as a preferred use.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.0078 cubic feet per second, or sufficient to water 250 head of cattle.

Work must be prosecuted with reasonable diligence and be completed on or before April 22, 1987

Proof of completion of work shall be filed on or before May 22, 1987

Application of water to beneficial use shall be made on or before April 22, 1989

Proof of the application of water to beneficial use shall be filed on or before May 22, 1989

Map in support of proof of beneficial use shall be filed on or before
